5 7 9

APL the Language

- A Tool of Thought
- A way to tell the computer exactly what to do
 - without having to tell it how to do it

Dyalog APL

- APL at the core
- Lots of tools to integrate with the environment
 - Database interfaces
 - .NET interfaces
 - TCP/IP communication
 - Parallel computing

APL – who uses it

- People who are trying to solve problems which haven't already been solved
- People who solve problems or manipulate data in environments where the conditions are constantly changing

We hope you will enjoy this event
